Dr. Joshua Lederberg
Stanford University School of Medicine
Palo Alto, California 94304

Dear Joshua:

Sorry to be so late in replying, but we have been having all kinds of vexing machine problems.

I am enclosing the results of the search on genetic variations in catecholamine metabolism. There are 4 citations in the first alphabet, presumably the closest to the mark, and 9 additional citations in the second alphabet. I hope these will be of some use. This is the result of searching the 1964 and 1965 tapes only; if you want us to push this through the 1966 tapes also, let us know.

I regret that I do not know of a set of diagnostic descriptors in the field of pediatrics.

I am fascinated to hear of your experience with the SDC time-sharing system. While I cannot really understand your article on the DENDRAL system, I appreciate having the opportunity to peruse it.

Best.

Aye,

Brad

Frank B. Rogers, M.D.
Librarian

encl.

Many thanks.
Sudata 1964
looking for.
yes. indeed please follow
through 1966.
UCLA really isn't
now when my requests to you become
unreasonable. (I have another item,
as attached.)

operational yet, but let me
you become
another item,
Sincerely
John
